

## “Notable Species” list for Falklands Native Plant Records

These species are either threatened or legally protected, or both. Threat categories are from the IUCN 2001. Information is correct as of 3/12/2019 but legal protection may change – please check. The precise location of highlighted species are obscured in the BRAHMS data-layer because they are only known from one site or are otherwise vulnerable to collectors. For iNaturalist records the precise location of the seven species which are Globally Threatened according to IUCN criteria are obscured, consistent with iNaturalist policy.

Information is primarily from Upson R and Lewis R. Updated atlas and checklist. Report to Falklands Conservation. 2014: 225pp. <sup>1</sup>Plants protected by the Conservation of Wildlife and Nature Ordinance 1999. <sup>2</sup>Assessed by Carr and Upson (2013) – not yet submitted to IUCN for review. <sup>3</sup>This species has been historically confused with *Gavilea chica* and the species to which records and the name “Pale Yellow Orchid” is currently unresolved, an additional orchid – *Gravilea araucana* has also been described from West Falkland, its national abundance has not yet been assessed.

Latin Name	Common Name	Falkland Distribution	Endemic	National Legal Protection <sup>1</sup>	International Category (IUCN)	National Red List Threat Category
<i>Acaena antarctica</i>	Antarctic Prickly-burr	FI	-	-	Not assessed	Vulnerable
<i>Adiantum chilense</i> var. <i>chilense</i>	Maidenhair-fern	WF	-	+	Not assessed	Endangered
<i>Alopecurus magellanicus</i>	Fuegian foxtail	FI	-	-	Least Concern	Vulnerable
<i>Arachnitis uniflora</i>	Spider-flower	EF	-	-	Not assessed	Endangered
<i>Asplenium dareoides</i>	Spleenwort	FI	-	-	Not assessed	Endangered
<i>Blechnum cordatum</i>	Chilean Tall-fern	WF	-	-	Not assessed	Vulnerable
<i>Botrychium dusenii</i>	Dusen’s Moonwort	FI	-	+	Not assessed	Endangered
<i>Calandrinia</i> cf. <i>nitida</i>	-	WF	?	-	Not assessed	Data Deficient
<i>Calceolaria biflora</i>	Yellow Lady’s Slipper	WF	-	+	Not assessed	Critically Endangered
<i>Carex acaulis</i>	Small Dusky Sedge	FI	-	-	Not assessed	Vulnerable
<i>Carex banksii</i> var. <i>banksii</i>	Bank’s Sedge	EF	-	-	Not assessed	Critically Endangered
<i>Carex kingii</i>	King’s Hook-sedge	EF	-	-	Not assessed	Data Deficient
<i>Carex macloviana</i>	Falkland Sedge	FI	-	-	Not assessed	Vulnerable
<i>Carex magellanica</i> spp. <i>magellanica</i>	Fuegian Sedge	FI	-	-	Least Concern	Endangered
<i>Carex sagei</i> (= <i>C. barrosii</i> )	Sage’s Sedge	FI	-	-	Not assessed	Endangered
<i>Carex vallis-pulchrae</i>	Marsh Sedge	FI	-	-	Not assessed	Data Deficient
<i>Chloraea fonckii</i>	Gaudichaud’s Orchid	FI	-	+	Not assessed	Least Concern
<i>Cystopteris fragilis</i>	Brittle Bladder-fern	FI	-	-	Not assessed	Vulnerable
<i>Draba magellanica</i>	Fuegian Whitlowgrass	WF	-	-	Not assessed	Critically Endangered
<i>Elatine triandra</i>	Waterwort	EF	-	-	Least Concern	Endangered
<b><i>Erigeron incertus</i></b>	<b>Hairy Daisy</b>	<b>FI</b>	<b>+</b>	<b>+</b>	<b>Endangered</b>	<b>Endangered</b>
<b><i>Gamochaeta antarctica</i></b>	<b>Antarctic Cudweed</b>	<b>FI</b>	<b>+</b>	<b>-</b>	<b>Endangered</b>	<b>Endangered</b>
<sup>3</sup> <i>Gavilea australis</i>	Pale Yellow Orchid	FI	-	+	Not assessed	Vulnerable
<i>Gavilea littoralis</i>	Yellow Orchid	FI	-	+	Not assessed	Least Concern
<i>Grammitis poeppigiana</i>	Strap-fern	FI	-	-	Not assessed	Vulnerable
<b><i>Hamadryas argentea</i></b>	<b>Silvery Buttercup</b>	<b>FI</b>	<b>+</b>	<b>-</b>	<b>Near Threatened</b>	<b>Near Threatened</b>
